| • Finland | • Italy | • Sweden |
| • France | • Netherlands | • Switzerland |
| | • United Kingdom | |

The Western European Market for Distribution Transformers

£1,750

This is the third in a range of more detailed product reports which have been produced to provide purchasers with comparable, international market data for present and future markets. Information from a variety of sources has been collated and analysed to produce the most detailed set of market estimates available. Sources include: national production statistics; international trade statistics; company annual reports; other published company information; interviews with companies; national and international press archives; trade press and industry websites; our own databases and library; other national research resources.

PREPUBLICATION ORDER FORM

This report is the result of months of research, based on more than 20 years experience in this market place. The report has 320 pages and contains up to twenty tables of data on each country covered. Additionally there is an executive summary which provides an overview of the Western European market place and a directory of producers in the region.

The information in this report is made available to you now at an equivalent price of less than £100 per country. Please complete the form below to order your copy, or contact us if you would like to see sample pages before ordering.
